

SP23 ITGM405

ASSIGNMENT 02

Course : ITGM 405 Interactive Design and Game Dev Studio I

Prof. Wan Chiu

A.02 Sprint 2 - Preproduction (15 %)

Overview

Comprehensive And Yet Concise Game/Project Treatment Aiming To Communicate The Chosen Design To Fellow Developers, Team Members And Creative Professionals.

Learning Outcomes

- Students will develop and set a detailed plan for designing and executing a completed project.
- Students will apply their art and design skills to create pre production for game / game art / interactive projects.
- Student will Iron Out All The Technical Obstacles To Allow Student To Create Their Best Work
- Students will Identify their personal direction within the fields of interactive design and game development.

Requirements:

Depends on Project Classification, the MS2 requirements as follows:

Environment Design	In-Game Character	Interactive	Console Game
Milestone Task List Playable Greybox - (Mid Detail) (20%) Art Direction (20%)	Milestone Task List (30%) High Res Sculpt (40%) ■ Zbrush / Maya Art Direction (20 %)	Milestone Task List (30%) User Research (30%) ■ User Interviews ■ Persona	Milestone Task List (30%) Playable Greybox - (Mid Detail) (20%) Art Direction (20%)

■ Architecture / Lighting / Motif ■ Color / Materials ■ Prop Design Sketch Level Diagram Update (Player Path / Beats) (20%) In Class Learnings (10%)	■ Reference Board ■ Color / Contrast In Class Learnings (10%)	■ Problem Statement Secondary Research (10%) ■ Competition Design (20%) ■ Ideation ■ Storyboard ■ Reference Board In Class Learnings (10%)	■ Architecture / Lighting / Motif ■ Color / Materials ■ Prop Design Sketch Level Diagram Update (Player Path / Beats) (20%) In Class Learnings (10%)
---	--	--	---

Tools / Software

1. Place your presentation in the form of a Google Site Location (The Course Outcome Site) <http://sites.google.com>.
2. Create a Google account if you do not have one.
3. Use the appropriate tools for Illustrations / Diagrams / Charts. For example, Pen'Paper, Illustrator or ProCreate etc.
4. Use the appropriate tools for 3D Mockup. For example, Maya, 3DSMax, Blender, Substance, Zbrush etc
5. Use the appropriate tools for Movie clip compilation / editing. For example, Final Cut, Premier, After Effects etc.
6. Use the appropriate tools for Game Production. For example, Unreal, Unity, GameMaker etc.

Assignment Phase:

1. Phase 1: Review Requirement of this assignment. (Class 03)
2. Phase 2: Progress Review (Class 05)
3. Phase 2: Milestone Presentation (Class 06)

Deliverables

1. Complete Project Proposal on Course Outcome Site
2. Details Regarding Content Available on the appropriate sections in the **Presentation Structure Section Below**.
3. **Refer Example Site Content available at Blackboard > Course Work**

Submission And Due Date

1. Take screenshots of the corresponding pages on the Course Outcome Site. (Automate using plugins like Awesome Screenshots for Chrome)
2. Compile the screenshots of your work into a PDF file.

3. Label this file according to this format: **SP24_DesignerName_A2.pdf**.
4. For example, if your name is John Smith, the file name will be **SP24_JohnSmith_A2.PDF**
5. **Submit your site URL, along with the Assignment Report** Via The Assessment Link In Blackboard **Before** Class Begins On Due Day.

Presentation On Due Day:

This Assignment Will Receive A Grade Of *F* If You Did Not Present In Class On Due Day.

Alternatively, If You Are Unable To Join Our Class On Due Day, **Film** Your Presentation Clips And Post Before Class Begins In The Discussion Group. Inform The Professor In Advance. This, Along With Your Blackboard Submissions, Would Be The Evidence Of Your On Time Delivery Of This Assignment.

Presentation Procedure

1. On Due Day, Present Your Assignment Outcome In Class with Class Equipment.
2. Audience
 - a. **Professor** Will Be Your Primary Reviewer.
 - b. **Art Directors / Recruiters In Industry** This Project Is Expected To Be Part Of Your Portfolio.
 - c. **Peers:** Designers In Class are expected to offer critique and feedback.
3. On Due day, Come to Class 15 minutes Early on Presentation Date.
4. Copy Offline Project Folder (Game, Art or Interactive) into Class Dropbox > Your Name > For Backup / Review
5. Test Project On Classroom Workstation. Project Must Be Running for Review. Executable Is Optional.
6. Presentation Order will be randomly determined.
7. When your turn comes, present your work in front of class. (This presentation performance is part of your grade)
8. **Time Limit: 5 Minutes** (Presentation Grade Will Be Docked If Over. You Will Be Cut Off On The 7 Minute Mark)
9. Conduct A Brief Q/A Session And Receive Comments From Professors, Industrial Guesta And Fellow Designers.(5 - 10 Minutes_

Assessments And Feedback

- This Assignment Is Worth **10 Percent Of Your Overall Grade** In This Class.
- The Category, and the point awarded are listed in the Grade Rubric Below.
- Refer to Class Lecture for the detailed breakdown of the above.

- Grade for Each category will Based On The Following Criterias:
 - Task Completion
 - The Task is corresponding to an entry to the current Sprint's task Milestone spreadsheet.
 - The Task has a finite goal that fits the schedule of this class.
 - The Task is completed / partially completed with proper explanation.
 - Scope / Planning
 - The Time use being planned / vs Actual time used are reasonably executed.
 - The Actual time invested reflects a combination of designer's skill and dedication.
 - Artistic Merit
 - Designs are unique and fit the parameters dictated by the goal of the project.
 - Outcomes are aesthetically sound and meet the requirement. (If you present this outcome to the project lead in an internship, would this outcome meet expectation?)
 - Delivery / Organization
 - Output Are Formatted and Documented properly (For example, Screenshots and animated GIFs)
 - Outcome is collected and represented in the course outcome site.
 - Printed And Physical Deliverables Are Professionally Created, Layouted And Edited
 - Professionalism
 - Worked Closely with Professors / Peers to iron out all difficulties.
 - Presentations meet the expectation of a formal pitch to team / industry representatives.
 - This Work Is Presented In Class And The Q/A Section Is Conducted In A Professional Manner.
 - The Final Outcome Is The Designer's Portrait, Aesthetic Is Refined And Suitable For A Designer Portfolio
- Prepare to work on your project each class. Feedbacks Will Be Given Continuously From The First Day Of Production During Class Breaks
- On The Class Before Due Day , Dedicated Time Will Be Provided In Class For Designers To Seek Feedback And Guidance
- Alternately, You Can Send Work In Progress Via Email.For Feedback And Guidance.

Grading

- Your Assignment Will Be Graded According To The Criteria Specified In The Abstract Self-Portrait Rubric Below.
- Each Rubric Criteria Correspond to A section of your presentation. If The section is absent, the category will receive a grade of F.
- Detailed Rubric Explanation Can Be Found In Class Lecture Notes. Example can be found in **Blackboard > Course Work** ,

Rubric For Console Game

	Milestone Task List	Game Play 10%	Level Blockout	Player Agency	In Class Work
Weight	30%	30%	20%	20%	10%
Rubric Criteria	21 Milestone Doc	08 Engineering / Execution	10 Design	10 Design	09 IN-CLASS LEARNING /
Total 100%					

Rubric For Environmental Design

	Milestone Task List	Level Diagram Update (Player Path / Beats)	Art Direction	Playable Grey Box In Engine	In Class Work
Weight	30%	20%	20%	20%	10%
Rubric Criteria	21 Milestone Doc	7 Documentation	10 Illustration	08 Engineering / Execution	09 In-Class Learning /
	Total 100%				

Rubric For Character Design

	Milestone Task List	High Res Sculpt	Art Direction	In Class Work
Weight	30%	30%	10%	10%
Rubric Criteria	21 Milestone Doc	08 Engineering / Execution	10 Illustration	09 IN-CLASS LEARNING /
Total 100%				

Rubric For Interactive Design

	Milestone Task List	User Research	Secondary Research	Design	In Class Work
Weight	30%	10%	10%	10%	10%
Rubric Criteria	21 MILESTONE DOC	2 Research	2 Research	10 ILLUSTRATION	09 IN-CLASS LEARNING /
